Analysing School Performance Data for Primary Schools

One Day CPD Event

Course outline/details

Aims

- Understand the importance and principles of assessment
- Forming hypotheses from externally available performance data (including ASP and IDSR)
- Importance of tracking current data
- Using data to make predictions and support self-evaluation
- Analysing individual, group and cohort data and trends

The facilitator for this course is Paul Longden an Education Consultant. Paul is an experienced Primary Headteacher of three schools.

He works for DELIOS – Developing Effective Leadership Improving Outcomes for Schools

The cost of the full programme is £100 per person (this includes lunch)

This will take place at the Diocesan Centre, Mackworth, Derby, DE22 4BD

Analysing School Performance Data for Primary Schools

This course is for:

- Primary schools
- Headteachers, senior leaders, middle leaders, phase leaders, core subject leaders

This interactive course helps you explore ASP reports and The Inspection Data Summary Report (IDSR) making links to your internal data systems whilst considering the implications for inspection.

The course will help you understand the ASP reports and be able to explain how this data underpins your school improvement areas.

Date: Friday 8 December 2017

Time: 9.30am to 3.00pm
